

NLDC vide letter dated 7th August 2023 has circulated Detailed Procedure for Assessment of Quantum of Secondary Reserve Capacity, in this regard the following points as stated earlier by SRPC secretariat may be noted:

- How the reserves are to be maintained by States at ISGS (other than dispatchable power)
- How the reserves would be deployed in real-time for AGC?
- Whether same ISGS can be wired for AGC for Regional and State ACE?
- Frequency Bias Coefficient will be good for performing States and they will be asked to put better Frequency Bias Coefficient while non performing states should be made raise their performance.
